SOLUTION

You can simply forget the rules and borders your mind created and realise that there are hardly any in the assignment. You can make one super wide line, fold the paper back or cut the dots and connect them. It's up to you, don't let the shapes confuse and limit yourself.

ŘEŠENÍ

Jednoduše zapomeňte na pravidla a hranice vytvořené Vaší myslí a uvědomte si, že v zadání téměř žádné nejsou. Můžete udělat jednu super širokou linku, přehnout papír, nebo puntíky vystříhnout a spojit. Je to na Vás, nenechte tvary aby Vás mátlly a omezovaly.
